Mr. Bernie Lambrese
Senior Partner
Angel Health Strategies/Healthcare Strategies
545 South Main Street
Providence, RI 02903

Dear Bernie,

I would like to take this opportunity to thank the entire Angel Health Strategies team for the financial and personal investment into the success of the ER Card. From our first meeting, you and your team not only recognized the potential of the ER Card service, but also understood the business strategies unique to our program.

Your team approach of well-experienced partners who are committed to contributing their time and talent has helped shape our strategies. From raising equity financing and building a budget, to your expertise in sales, marketing and information technology, your personal attention and hands-on assistance has exceeded my expectations.

In this competitive field of electronic health records, I understood the need to partner with a team who had your unique expertise in order to bring my company to the next level. Your healthcare investment and entrepreneurial experience are the keys to our success in this arena.

Locally and nationally, the subject of health IT is viewed as a hope for the future. Your team has understood that such a system like the ER Card is already a viable option. By hitting the ground running, your team is helping us change the way medical information is delivered, and at the same time is building a company of value.

Thanks to you and your team of seasoned professionals, the future of electronic medical records is here and now.

Sincerely,

Maria Gil
Vice President/ Partner
