Healthcare Strategies  
36 Reliance Drive  
Bristol, RI 02809

Dear Bernie:

I wanted to take a moment to thank you for all the help and counsel you have given to me to make the Lincoln Alzheimer's project a reality. Projects with purpose many times get lost based upon those whose spirit is strong but they lack the information and financial resources they need to make it happen. Your organization provided not only the information but also you understood how the process worked, what kind of financial resources were needed to make the project happen and those to contact to realize the dream.

The Alzheimer's project is moving forward. The work you have done for this project will not only benefit the investors but also those individuals with Alzheimer's who will find their way to our open door.

Thanks for your help.

Sincerely,

Herb George
